

'Earn-while-you-Learn'

Highlights of B.Voc. Programs

- On-Job-Training (OJT) throughout the year during all three years
- Assured apprenticeships, paid from second year onwards
- Three years of work experience at the time of passing out

What you will learn

This program covers the entire canvas of medical laboratory techniques, clinical tests, quality assurance, and clinical and technical considerations of various departments such as Haematology, Phlebotomy, Clinical Biochemistry, Serology, Immunology, Parasitology, Blood Banking, Microbiology, and Histopathology.

About the Program

Students will get practical hands-on training on all related equipment such as CBC machine and semi-auto analyser, and also get real time exposure to blood collection procedures, processing, and transportation of samples, and so on.
