

B.Voc. Medical Imaging Technology

'Earn-while-you-Learn'

Highlights of B.Voc. Programs

- On-Job-Training (OJT) throughout the year during all three years
- Assured apprenticeships, paid from second year onwards
- Three years of work experience at the time of passing out

What you will learn

The program covers the entire canvas of medical imaging techniques, equipment maintenance, and its physics, clinical and technical considerations of imaging modalities such as X-ray, CT, MRI, Mammography, BMD, OPG, Fluoroscopy & PET-CT

About the Program

The program consists of 40% general education and 60% of vocational education of which the major portion is OJT. Student get hands-on training in all the imaging techniques and get real time exposure in handling different types of equipment and imaging procedures.

Eligibility: 12th/ PU (Science)
